CVLKRA – UID 2.5 Integration

Intermediaries are advised to take note of changes related to e-KYC processing in CVLKRA application with respect to Aadhaar regulatory changes and Aadhaar e-KYC API version 2.5 for implementation of Virtual ID.

1. Existing Aadhaar Number field will continue to exist in all the 3 file types, passing value in the field will become optional in case of e-KYC transaction.
2. 3 New fields get added to KYC Creation / Modification file structures.

Version Number	3 digit Alpha Numeric Value)	Optional for existing structure / Mandatory with value “V28” for UID 2.5 Integration changes
VID Number	16 Digit Numeric Value	Optional field
UID Token	72 Digit Alpha Numeric Value	Optional for Normal KYC / Mandatory for e-KYC transaction

3. In case of e-KYC transactions, passing value in UID Token value will be mandatory, passing Aadhaar Number will become optional.
4. 3 New fields get added to Solicit / Unsolicited file structures which will be optional.

Version Number	3 digit Alpha Numeric Value)	Mandatory with value “V30”
CVL Vault Reference Number	20 Digit Alpha Numeric Value	Optional field, value will be present if the UID is seeded in CVLKRA
UID Token	72 Digit Alpha Numeric Value	Optional for Normal KYC / Mandatory for e-KYC transaction

5. If the UID Token value is present, then the KYC Record will be treated as UID Authenticated.
6. Current masking of Aadhaar Number in Solicit / Unsolicited files will be changed to “Y” / “N” which will indicate the UID Authentication status.

Note:

- a. Intermediaries are advice to make necessary changes in their application at the earliest.
- b. Both exiting version and new version of file structures / API will be supported by CVLKRA application / Web service until further instruction for discontinuing the old version.
- c. Please refer to the Latest File structures available in the download menu section of <https://www.cvlkra.com/>.
- d. UAT environment for the above changes will be available by 30th June 2018.
